NEW CARS WILL ASSIST DRIVING

The automobile shows are about over and we have seen the new models for 1938. They are improved, and have better brakes, tires, lights, bodies, steering devices and springs. Generally speaking, they are stronger, more beautiful and safer than any previous model. How different they are in every way from the 1936 models, or even from the 1936 motor cars.

But the 1938 model driver or pedestrian is about the same as the earlier models, and no matter how hard the manufacturer may try to build safety as well as beauty into his car there will still be accidents as long as pedestrians are careless and motorists ignore the simple rules of good sense and decency in their driving.

The National Safety Council suggests that we try to improve our driving and walking habits as much as the manufacturers have improved their cars. We will have safer streets and highways if YOU will do your part.—San Mateo County Traffic Safety Commission.

PROVIDE FUNDS FOR EXHIBIT BY MISSION TRAILS

Appoint Members Of County Board Of Education—
Other Business

At the session of the San Mateo County Board of Supervisors, Tuesday of this week, on recommendation of Supervisor Beer, the board made \$1000 available to the Mission Trails Association for preliminary work on the 1939 world fair exhibit.

Andrew Spinas, superintendent of Redwood City elementary schools, was appointed a member of the County Board of Education on motion of Supervisor John W. Poole.

The county milk inspection ordinance was strengthened by addition of new sections, providing:

1. All dairies with one cow, or one goat, or more shall comply to the ordinance.
2. All cream must be graded and

(Continued on Page 4)

COLLEGE TO SELL JAYSEE BUILDING

Mayor Frank P. Simmen of San Mateo advocates the buying of the present San Mateo Junior College building when the school has moved to its new campus, in order to provide San Mateo grade schools with a junior high.

The buying of the present Jaysee building would benefit the San Mateo grammar schools, which now need a junior high school plant, and would aid the junior college by giving the institution additional funds with which to build up its new plant.

The San Mateo Junior Chamber of Commerce is expected to endorse such an arrangement, as their outgoing board recommended such endorsement to the incoming officers.

Hit-Runner Admits Side-Swiping Auto

Discovery of a hub cap and license plate torn from his auto in a crash led to a confession by Lee J. Sneath, Hillsborough, that his car was involved in a hit-run accident Tuesday evening of this week.

Blanding Sloan, prominent artist, is recovering at his Menlo Park home from the effects of shock and painful cuts and bruises incurred when his car was sideswiped and wrecked on Bayshore highway near San Bruno last night.

COED HELD IN DEATH

A coroner's jury at Philadelphia this week brought in a verdict that Mary K. O'Connor, 19, Immaculate College student, was responsible for the death of Nancy Glenn, 5, and that the child died from drowning.

FAST RUNNERS IN COMPETITION AT TANFORAN

Some Of Best To Start In Half Moon Bay Handicap Today

Eighteen sterling thoroughbreds have been nominated for the \$2500 added Half Moon Handicap at Tanforan today, Saturday, December 11. The star studded list of nominees, announced by Racing Secretary Julius G. Reeder, reveals the presence of the champion from Uruguay, Amor Brujo; the Argentine star, Sargazo, and Fair Knightess, generally regarded as the best 4-year-old mare in American training.

The outcome of the race—of keen interest on two continents—will have a definite bearing on the \$10,000 added San Francisco Handicap at Tanforan, December 18, as well as the fixtures to be run at Santa Anita during the winter. The Half Moon Handicap is at a mile. Amor Brujo, considered by horsemen and clockers alike, as the greatest threat to Seabiscuit, will be making his second American start, and faces first class competition for the first time in this country. He was a galloping winner here in his only start over a drying out track.

The black champion from Uruguay will run coupled with Sargazo, a smashing winner last out, as the H. A. Luro-A. E. Silver entry.

Charles S. Howard, San Francisco turf patron, is represented by a battery of four stars—Fair Knightess, Chanceview, Advocate and Exhibit. Howard plans to run Seabiscuit only in the San Francisco Handicap, but he is providing a stern test for Amor Brujo with his powerful entry.

Without exception, all of the top-liners have come up to this engagement in excellent style. All have turned in keen trials and are expected to run to their best form.

Other aces in the encounter include Primulus, twice conqueror of Indian Broom last year; the entry of Gleeman, and Rockwood, both performing in splendid fashion; King Saxon, America's champion miler of 1935; Count Atlas, a New York invader; Sabueso, an Argentine importation which won a handicap in his last start; Tick On, which made a great comeback this meeting; High Vote, a sprint sensation; Marynell, now going in top form; and such other good ones as Your Honor, Little Nymph and Rommy.

No Excuse For Reckless Driving

"Drive Carefully" was the main idea of an interesting address delivered by Mr. J. Hersenberger, head of the San Francisco Traffic School and the Police Traffic School, to the Jefferson High School students Tuesday afternoon of this week. He gave various examples of the terrible results of reckless driving.

To leave a deeper impression on his audience, Mr. Hersenberger presented a moving picture entitled "Remember Jimmy." The film portrayed the tragedy which falls on a family after a serious accident, using Jimmy's parents as an example of millions of families in America who suffer fatalities and serious injuries due to the carelessness of many drivers.

The fact that a great percentage of the people killed or permanently injured are children, was particularly stressed. In conclusion, Mr. Hersenberger said that one should drive as he would expect another to, if his mother was crossing the street.

New Equipment For The School Kitchen

The financial committee in charge of the tennis court fund, have decided to use the money to replace equipment in the Brisbane school kitchen. The fund was raised by holding a dance in the Fireman's Hall, September 4, 1937.

The money available, \$33.50, is not enough to even start a court, so the committee will equip the kitchen so that hot lunches can be prepared for the children. Lunches are now being prepared by Mary Richards, who has only a small gas plate to use.

Scores Escape Injury As Chicago-Bound Train Jumps Track

Scores of passengers went unhurt as four persons were injured when a transcontinental train recently jumped tracks near Hayward, Calif. The locomotive and tender left the right of way and plowed up more than 1500 feet of track, ending up in a shallow gully. Engineer R. M. Conley of Oakland and Fireman M. R. Ragusa leaped from the locomotive before it turned over. Conley was unhurt, but Ragusa suffered cuts and an injured leg. Mrs. Martha Shinkuse and her daughter, Sophie, passengers, were treated for severe bruises. Photo shows the engine on its side in a Hayward orchard.

COUNTY CLERK SUPERVISORS IN STATEMENT BY NAMES DEPUTY EFFORT TO MAKE COUNTY CLERK CONSOLIDATION

County Clerk William H. Augustus today announced appointment of Carl E. Peterson, clerk of Superior Judge Cotton's court, to the chief deputyship in his office, effective immediately.

Chief Deputy Peterson will receive \$225 a month salary. His court clerk's salary was \$190. He was first appointed a deputy by the late County Clerk Elmore B. Hinman, on July 1, 1933, and was reappointed January 7, 1935. A graduate of San Mateo Union High school and one-time resident of Burlingame, Peterson moved to San Carlos with his wife and family some time ago.

At the same time Augustus announced appointment of Sidney P. Hinman, a son of the late county clerk, as court clerk succeeding Peterson in court No. 2. Young Hinman is married and resides in Redwood City.

Juvenile Star In Appeal for Christmas Seals

Jane Withers

Jane Withers, juvenile star of the screen, who recently made a public appeal to enhance the annual sale of Christmas Seals. Proceeds of the sale are used in battling the dread disease, tuberculosis. Jane displays an enlarged copy of the tiny Seals.

Provide For Bond For Unnamed Employee As "Deputy County Purchasing Agent"

Plans for the reorganization of county government by combining the offices of executive and purchasing agent, and setting up a central service bureau were being consummated by the County Board of Supervisors Tuesday of this week, in two separate actions.

First was transfer of \$113 from the unbudgeted reserve to pay for a tabulating machine operator in the executive's office for the month of December.

Second was fixing of a \$1000 bond for a "deputy county purchasing agent," as yet unnamed. The sum of \$5 was voted to pay for the bond.

It was assumed that the new deputy purchasing agent will work out of Rolison's office when the new consolidation ordinance becomes effective.

The board also transferred \$179 from unbudgeted reserve to the courthouse fund to pay for a relief operator at the telephone switchboard.

Although the proposed consolidation of the county executive and purchasing agent offices will be fought in the court by Stanley Kelly of Burlingame, incumbent purchasing agent, it seems apparent that the board plans to proceed with consummation of the plan.

Deputy District Attorney Daniel Sullivan blocked the passage of a

(Continued on Page 4)

Were In Wreck On Return Trip

Mr. and Mrs. William Jones and brother-in-law, had a narrow escape when their car skidded on a curve and turned over into a ditch on their way back from Florida.

While the car was badly dented and crushed, it was in such a condition as to still travel.

Mr. Jones had broken glasses and a temporary loss of memory, while Mrs. Jones and the other passenger, were painfully bruised.

MANY BICYCLES USED

More than 175,000 cyclists pass through Berlin's streets every day, according to details of a traffic census taken over a period of 12 months.

On Sundays the number swells to between 110,000 and 112,000.

Although the local daily papers of December 7, published the announcement of the promotion of this office of Carl E. Peterson, formerly Deputy Court Clerk in Department No. 2, to the position of Chief Deputy County Clerk, and the appointment of Sidney P. Hinman, son of the late County Clerk E. B. Hinman, as deputy court clerk in Department No. 2, it is felt that since a number of others had submitted applications for the position of chief deputy, and particularly as such appointments are of public interest, a further statement from this office may be apropos at this time.

While there may still be some who do not heartily endorse all provisions of our County Charter, yet we firmly believe there are none who do not agree with principles embodied therein providing for the promotion of those in the county service who are qualified and rightfully entitled to such consideration if and when an opportunity is presented.

Being a firm believer in that principle of our Charter as the expressed will of our citizens and in order to promote the harmony and efficiency of the office to the end that the best interests of the county as a whole, may be served, rather than any personal interest, the promotion of Mr. Carl Peterson has been effected.

In deference, however, to Mr. Homer Hargrave, Deputy County Clerk in Department No. 1, who has been in the county service longer than Mr. Peterson, may it be said that although in point of service he might be considered as entitled to the promotion, he did not wish to change positions, choosing rather to continue as Deputy Court Clerk in order to further pursue the study of law.

The appointment of Mr. Sidney P. Hinman as Deputy Court Clerk is made both on merit and as a tribute to his late illustrious father, who has given much to this county and as well to the State of California.

Render Program For China Benefit

In response to a letter received by the president of the student body and the captain of the football team of Jefferson Union High School, from students in China, a benefit program will be rendered this afternoon.

The entertainment will consist of a student "swing band," the popular singer Albert Marcucci, a skit and outside talent. The vice president, Mike Kerekes, will act as master of ceremonies.

A general admission fee of 5 cents is being asked and all money will be given to the Red Cross to aid in the Far Eastern crisis.

PUBLISHERS OF COUNTY ELECT NEW OFFICERS

Page In C. N. P. A. Rate Book Will Be Unique Form Of Advertisement Of Unit

The regular monthly session of the San Mateo County Press Association assembled at Pete and Mary's, about a mile south of Redwood City, Monday evening of this week.

A dinner preceded the business meeting.

L. E. Harris of the Menlo Park Recorder was named president at the annual election of officers. He succeeds Sam H. Winklebeck, publisher of the Redwood City Tribune.

Harry Butler of the San Mateo Times was elected vice president, succeeding Harris, and George McQueen, general manager of the Burlingame Advance, was named secretary, succeeding Mrs. Anne Brubaker of the San Mateo Times.

Installation will take place at a meeting in San Carlos January 3.

It was reported that the page advertisement of the Association to appear in the California Newspaper Publishers Association rate book will be unique in a number of features, and will boost all of San Mateo County and its newspapers. This annual edition is distributed among all advertising agencies in the United States, and is used as a reference for various markets of California.

J. C. Chastain, former Redwood City publisher now at Belmont, was welcomed into the association, representing Bernice Batterton, new publisher of the Belmont Courier and San Carlos Bulletin.

The next monthly dinner meeting will be held in San Carlos in January. Host publishers will be Lester Lafferty, publisher of the San Carlos Enquirer, and Miss M. Batterton, publisher of the Belmont Courier.

Those present were: Sam Winklebeck, Redwood City Tribune; Mr. and Mrs. P. W. Brubaker, San Mateo Times; Mr. and Mrs. Harry Butler, San Mateo Times; J. C. Chastain, Belmont Courier; Mr. and Mrs. Lester Lafferty, San Carlos Enquirer; L. E. Harris, Menlo Park Recorder; Mr. and Mrs. W. E. Pitschke, Daly City Record; H. P. Bradshaw, Daly City Record; Mr. and Mrs. George McQueen, Burlingame Advance, and H. B. Cook Jr., San Carlos.

AUTO COLLISION INJURES FIVE

A collision involving two automobiles and resulting in injury to five persons occurred, Sunday of this week, on the highway between Rockaway Beach and Pedro Point.

Forest Cubbon of Post street, Santa Francisco, driver of one car, suffered lacerations and a possible fractured knee and his wife Frances incurred a fractured right arm, concussion, abrasions and lacerations. Both were given treatment at the Villa Sanitarium.

Occupants of the other car were Arthur and Harry Palmer, accompanied by their 74-year-old mother, all of Omaha, Nebraska, who were visitors to the bay region. The three were given treatment at the Junipero Serra hospital for less serious injuries consisting of cuts, bruises and shock.

Injured In Accident

Three University of San Francisco athletes were injured, late Friday evening of last week, in an auto accident which occurred at Mission and School streets.

The youths were returning from a basketball game held at the Sequoia High School in Redwood City.

On arrival at the Villa Sanitarium James Kwapiel and John Collins were found to have sustained numerous lacerations and bruises. The third member of the party, also named John Collins, suffered possible fractured ribs and internal injuries.

Something To Crow About

Consternation and great amazement was expressed by court house employees at Bucyrus, Ohio, one day this week when a beautiful crow, seemingly quite tame, flew into the probate judge's chambers and hopped about contentedly for some time before flapping away again.

CALIFORNIA LEADING THE NATION!

A note of cheer for California's prosperity was wrapped up in a neat package of imposing figures made public the other day.

We lead every state in the union, including the densely populated state of New York which lays claim to twice as many inhabitants as California, in the total number of car registrations!

In the first six months of the year, this state chalked up 2,476,487 motor vehicle registrations, to New York's 2,360,408 in the same period.

Purchasing power in California is packing a huskier wallop than it was a year ago, and the thousands of workers in the state's automobile plants and in the heavy industries of the East, will reap some of the benefits of this added push in the pockets of California's Mr. John J. Consumer.

ROCKAWAY BEACH PEDRO VALLEY

By C. H. T.

Motorists driving along the new coast highway heaved sighs of relief to find the gate swung open for passage through from Pedro to Montara, after being closed for several weeks on account of slides. Sunday found an almost continuous string of cars moving along the highway, showing how rapidly this scenic region is being discovered since the completion of the new road. Perhaps the most significant point in the process of the "discovery" is the coming of the Greyhound buses along the highway through Rockaway and Pedro, to serve wayfarers to San Francisco and back. This one single thing stresses the official opening up of our local territory as an established fact. But not until Pedro has better roads within its borders, will the little village begin to flourish as it should. Just one heavy rain, and the steep hill at Grande avenue will squash into thick, oily mud, about the color and consistency of ochre paint, and cars will slither around in it as though they were climbing up the topside of a pumpkin pie!

Lively expectation has been aroused by the Hobo Dance to be given at Vallemar this (Saturday) evening. Special care has been taken to provide all that makes for a successful social occasion, and even though the weather might possibly be moist, the hall is water-tight, and the music will sound just as inspiring with an obligato of raindrops on the roof. Still, we hope fervently, that the night may be as delightful as when the former dance was given a few months ago.

This community was shocked at the automobile accident that sent Mr. and Mrs. Forrest Cubbon to the hospital last Sunday, suffering serious injuries. From all accounts, it seems to have been just another of those quite avoidable "cut-in" accidents responsible for so many fatal-

ities. Much sympathy is expressed for the Cubbons, with the hope that both may emerge safely from this painful disaster, without permanent injury.

Mr. Peter Haugaard, of Shelter Cove, driving to Rockaway, arrived on the scene before the victims of the accident were removed by ambulance, and the terrible sight caused him to faint. Jim Trogia and Hector Martin carried him to the former man's car and drove him home in what seemed to be a serious condition. Report is that by this time, he has entirely recovered.

The Karl Strutzes have a new dog. Just a pup, black-and-white, with a doughty coat and a various ancestry.

Mayor Roddy and his helper are digging away at the mountain all around the water tank next door to the Johnsen place. The mayor has the endurance and energy of a much younger man, and he never calls a halt while there's work to be done.

Local circles are looking forward to the card party at the Rockaway school, December 17, in aid of the children's Christmas tree. Mrs. Jennie Bicknell, who is immensely fond of children, is putting her shoulder under this project for the annual holiday tree, so it is bound to be a success.

Jim Stuart reports good crabbing, the best of the season. Rough seas have interfered previously with fishing and crabbing, to the disappointment of all concerned, but now things are looking rosy again—including the crabs boiled so skillfully by Gladys!

Friends of Dr. Shawk, regret to hear that he has suffered a hemorrhage of the eye that has temporarily impaired his sight.

A whisper goes the rounds that "someone is keeping tabs on the cars" passing along the new Rockaway-Pedro highway, and remarking upon the evidences of wealth rolling past in expensive limosines. At the same time, one hears a rumor that two men drove down to look over the Tobin estate, and its environs.

"DANGER ZONES IN T. B. BATTLE"

Christmas Seals as sold by the San Mateo County Tuberculosis and Health Association and elsewhere in the country from Thanksgiving to Christmas, help to make possible the tuberculosis testing and x-raying with follow-up examinations as shown in these photos. Although the number of deaths have been reduced, tuberculosis is still the leading cause of death with young women between 15 and 30 years of age. It also takes 6½ as many men in the lowest economic as the higher. The young woman to the left is having an x-ray following a tuberculin test, as was given in our high schools with last year's Christmas Seal funds, she was found to have been infected with the germ causing the White Plague, as were 376 other high school students. All of these students have been x-rayed to discover the degree of infection and are under their own physicians or under the supervision of county agencies responsible for their care. The young man has been sent to his physician by his employer for a thorough physical examination which includes an x-ray of the chest.

It all looks like progress—but we hope that it will be progress in the right direction. It would be sad to see this lovely place lose its unique charm and become merely a real estate project.

The Fred Bohrs spent part of the week at their summer home, enjoying the pleasant autumn weather in one of the loveliest places to be found in California. Fred says: "You don't know what you have here in Pedro. It's a spot in a million. It has everything!"

And so it has. Pedro is the exceptional place anywhere that possesses a valley with only one side! Most valleys, you know, have two slopes. This extraordinary feature should prove an attraction to travelers from all parts of the world who like to see strange things and oddities of all kinds.

"Starlight," the Rees colt, is growing up, and beginning to understand such chafing things as bits and

bridles. The new horse, young Johnny Hills, is being groomed for his career on the racing track. Johnny is fond of his new master, watching eagerly for Harry's visits, and stretching out his sleek neck for a caress.

"Drums," the Cubbons' little dog, is restlessly awaiting their return, and will not be happy until he sees them again. He was in the automobile accident, but escaped with a few minor scratches.

Mrs. Becky Johnson is having a septic tank put in on her land, following the placing of a cement foundation under the house.

The George Olmos have a new car. Hector Martin has installed the boxes at our new post office. It looks like a real, sure-enough post office now.

WRITERS LIKE XMAS PROGRAM TO TELL STORY PRESENTED BY OF GOVERNOR HIGH SCHOOL

Has Peculiar Notions As To
Who "Won A Victory" But
Knows He Did His Part

The Indiana Governor is not very tall. His black hair is slightly gray and slightly curled. When you look at his face, you know that he has worked in the fields under a hot sun. When you look at his hands, you know that he has worked hard. His tastes are not on the grand scale. Fishing and hunting in his own state are his chief relaxations. As lieutenant governor he lived simply in an inexpensive Indianapolis hotel that was spurned by many a country legislator as an "antique."

Typical of the Townsend rural bent of mind is this story that Indianapolis newspaper men like to tell of him. His campaign manager, now his secretary, suggested that they go out to the huge Butler University field house for the finals of the state high school basketball tournament.

Now, in Indiana basketball is all-important. It is the national sport. And this particular game was most exciting. The scores had sent it into a second overtime period. The field house was a bedlam. Mr. Townsend surveyed the scene for a while. Then he turned to a friend.

"My," he said, "but you could stack a lot of hay in here."

That is the farmer-governor who brought a measure of peace to steel while neighboring governors waited hopefully for the government to act or floundered hopelessly as their own efforts went amiss.

"Nobody won a victory," he said in discussing the steel peace. But inland is sure it has not yielded to the C. I. O. And the union men are sure that they have obtained the best settlement yet achieved in the industry. And Governor Townsend, you may surmise, is sure that he has done a good job.

OBSERVATION OF VARIOUS THINGS IN OUR CAPITAL

Interesting Address On Subject Of Homecraft By Experienced Student Of That Art

(By Hart Goodrich)

"My definition of a work of art is something made as well as is possible and which answers some useful purpose," said Allen H. Eaton, authority on American Homecrafts, at the Exhibit of Rural Arts in the Agriculture Building, in a recent address.

Mr. Eaton has gathered a very interesting group of hand-made articles from practically every state in the Union, including rugs, linen, pottery, musical instruments, harness, wood carvings, quilts, basketry and metal work. In his lecture he stressed the value of homecrafts, not only from their monetary value but also as a useful hobby for leisure time and as a satisfaction gained from creating beauty and utility in a single object.

There are hundreds of human interest stories behind these artistic accomplishments. The speaker mentioned the two sisters on a small farm in North Carolina who found honeysuckle vines (while a lovely flower to some, still a difficult problem to farmers in this locality) usurping the place of more productive crops. They hit upon the idea of making honeysuckle vine baskets and are now noted for their beautiful basketry.

Then he told the story of the little boy in Utah who often played truant from his rural school and who, after a two weeks absence was found in an old shack up in the hills carving amazingly lifelike animals out of wood.

There is the story of the farm boy up in Vermont who was so interested in catching and holding the beauty of snow crystals by trying to draw them that his mother finally saved enough money to buy him a magnifying glass and camera. At the age of 50 years, he had a collection of over 5000 pictures of enlarged snow crystals. This was brought to the notice of the Weather Bureau and it was found that his collection was the most complete ever made and of considerable value in the study of snow formations—a valuable contribution to science from an uneducated farm boy.

The Department of Agriculture has encouraged the homecrafts as much as possible, since many farms have become less productive as the years go by and it is necessary for the farmer to find some additional income. The majority of agriculturists are too far away from towns to be able to care for their farm and obtain part time employment except in the making of such articles as are displayed in the exhibit. Their one large problem seems to be in marketing their products. Mr. Eaton has done considerable work in organizing rural guilds, which act as co-operatives and often market the finished products of their members.

HELP PLENTIFUL

The Civil Service Commission at Washington, D. C., announced this week that the executive branch of the federal government had 827,701 employees during October, a decrease of 8892 from the September total.

PATCHED TUBES

Inner tubes which need several patches to repair them should be discarded. This is particularly true if the punctures are close together.

Several patches near one spot have a tendency to throw a wheel out of balance, causing shimmy and other steering trouble.

BAYSHORE NEWS

Christmas is in the air in Bayshore and various committees are busily working to again make it a happy one.

Tuesday night of this week, the City Council of Bayshore voted \$200 for the annual birthday party and children's Christmas tree, to be sponsored by the city. All city officers, their wives and city employees will act on the committee. A canvass of the town is being made this week to determine all the names and ages of children living here. Each child will be presented with a nice gift appropriate to his or her age, candy and ice cream. In addition to this, there will be a special show of professional and local talent and Santa, as usual. Refreshments for the grownups and the large cake that will commemorate the birthday of the town of Bayshore. The date is Wednesday evening, December 22, at 8:30. Don't forget that date, it will be a big night in the city of Bayshore.

Mrs. Pasini is heading the club promoting the first annual outdoor Xmas tree contest. She reports that there are 31 entrants to date. Prizes will be given for the best displays. Not only will decorated outdoor trees be judged, but also window displays. The following organizations are trying to make the project a success and have donated these sums to be used for prizes: Bayshore Voters' League, \$10; Bayshore Protective Association, \$10; Easley and Brassy, \$5.

Anyone wishing to help along and donate prizes, either cash or otherwise, please get in touch with Mrs. Pasini.

The Bayshore P.-T. A. will also sponsor a Christmas party for the school children on the last day of school. On this day, a program by the children will be presented and the ladies of the P.-T. A., headed by Chairlady B. Jeppesen, will distribute candy and ice cream to the kids. All parents are invited to attend.

The Bayshore Traffic Boys last week presented to the school a beautiful American flag and a standard bearing the name Bayshore School. After a parade through the town, under the direction of Chief of Police Williams and safety chairman for the Bayshore P.-T. A., the boys brought the flag to the school where, with the help of the higher grades, a very impressive ceremony was held and the two flags given to the keeping of the school.

Money for the flags and for rain outfits for the traffic boys, was derived from the whist given recently under the direction of Chief Williams, Councilman Smith and Mrs. Dorothy Cox, chairman, and under

L. A. Husbands in Wife Exchange, Children Go With Mother

In a four months' process of divorce and remarriage, two Claremont, Calif., couples recently squared the "eternal triangle" when Ira Ashcroft, 54, wealthy banker, honeymooned with the former Mrs. Louise Voss, 27. At the same time, John Voss, 30, school teacher, wed the former Mrs. Hortense Ashcroft, 50. Ashcroft denied the couples had planned to trade mates and declared "it was just a natural development." Photo shows Mrs. Hortense Ashcroft Voss (left), Rachel and Billy Ashcroft, her children, and John Voss.

the sponsorship of the Bayshore P.-T. A., City Council and Voters' League.

Plans for the Bayshore additions and improvements to the school, have this week been filed with the State Division of Architecture, by the acting clerk of the board, Mrs. I. Mardecich and Architect Thomas M. Edwards. Drawings of the proposed plans are displayed at the school. Approximately one month has been set aside for calling of bids, etc., and the actual construction will take from 45 to 60 days.

Owing to numerous complaints to the city council, the Chief of Police will, this week, begin to remove from the district all stray dogs. Other cities and towns of the Peninsula are conducting these campaigns, owing to the rabies scare, so Bayshore will do likewise.

Bayshore City Council voted \$50 from the relief fund for the P.-T. A. milk and shoe fund which was depleted. The check was received by President Sue Byrnes.

FROM SUBLIME TO RIDICULOUS IN PRODUCTION

Drama And Sophisticated Comedy To Give Way To Holiday Presentations Of Vaudeville And Music

Austere drama and sophisticated comedy will give way to the whimsical stage productions that contribute to the good will of the Yuletide season during the holidays at the Federal Theater Project's Alcazar

Theater in San Francisco. Shaw, Galsworthy, O'Neill, Sinclair Lewis and Elmer Rice will all be wrapped in cotton and put on a high shelf until after New Year's Day to yield the stage to the charm of a Charles Dickens Christmas story, "Cricket On The Hearth."

It will be presented by a marvelous cast of professional actors and every afternoon will see another group of professionals, the marionettes, in a series of timely marionette plays, Shakespeare's "Twelfth Night" or "Alice In Wonderland," by George Carroll. To wind up the holiday season in a burst of hilarity Max Dill has long been lining up a top-hole vaudeville bill with Pacific Coast variety stars and a lot of new Nate Goldstein music, with two performances a day and a midnight performance New Year's Eve.

There you have it, a theater program of presentations ranging all the way from Max Dill to Shakespeare, or vice versa, all in the short space of two weeks.

P.-T. A. Hold Well Attended Meeting

The regular meeting of the Bayshore P.-T. A. was held Friday afternoon, December 10, at the school house. An interesting program was enjoyed, and well attended.

The following poems were composed by Mrs. L. C. Jeppesen, Bayshore P.-T. A. Study Circle chairman.

THE P.-T. A. "OUR OAK TREE"

In eighteen-ninety-seven, this little tree began

And from a tiny acorn, its little tendrils sprang.

In nineteen-hundred and seven, branches spread and acorns grew.

Such staunch and willing workers, kept its branches strong and true.

In nineteen hundred and seventeen, it fuller still, had grown, Till the mighty Oak looked down, and said, "My what a seed I've sown."

In nineteen hundred and twenty-seven, it still was going strong, And all its tiny branches, were growing right along.

It's nineteen-thirty-seven now, and, just look at our tree; Still, it grows and spreads itself, how much greater will it be?

Under your outspread arm, we work, to help our children, And keep them from all harm.

BAYSHORE UNIT, 1929-1937

We started in 1929,

Just a branch, of this mighty oak.

And year by year, we stronger grew, And our part of the work, we took.

We've struggled along, thru' thick and thin,

With child welfare ever our goal. Our door is open, to welcome in Each new comer to the fold.

And now, it's '37 and we're still going strong To make our unit a grand success, We're surging right along

Our work is for child welfare, And with it, hand in hand, The P.-T. A. will work each day For peace throughout our land.

Mrs. Jeppesen wishes to announce that study circle classes are discontinued until further notice.

TIGHT FLOOR BOARDS

Floor boards, mats and other floor coverings in the car should be kept snugly in place at all times. These coverings help to keep poisonous carbon monoxide fumes from entering the passenger compartment.

Such fumes are present in varying quantities in the exhaust gases of every car. Odorless and invisible, the fumes may overcome motorists before they realize the danger.

FIRESIDE CHATTER

(Louise K. Lueke)

Well, here we are again. The weeks seem to fly by so quickly and Christmas is so near, it just takes one's breath. The children of Brisbane are going to have a fine time this year. The P. T. A. Christmas party is first on the list, then Christmas eve the big outdoor Christmas tree on the Brisbane Community Church lots will blaze into glory. Christmas morning the firemen will have Santa Claus and Sunday after Christmas, December 26, the Community Church will present a program at the Firemen's Hall at 10 a. m., when gifts will be given to all present. Christmas eve, when the community tree is lighted, all who will participate, are asked to gather at the tree and join in singing Christmas carols that are familiar to everyone.

The new sewer is going in fast. Manholes every so often, will carry the water from the streets and eliminate the flooded basements in the lower sections of Brisbane.

We hear rumors of a new drug store in the Lopez building soon. Not made public yet.

Have you noticed the nice enlargement the firemen are building to their hall? These men are working hard to make a better Brisbane. Folks let's throw away some of the hammers and give them a boost.

Do you know we are going to have sodium lights along the highway, from the county line to South San Francisco? The same type light that is on the bridge. Understand they will be placed every 200 yards. Ought to help.

Rev. and Mrs. M. Donaldson have moved into their new home, 300 Klamouth street, and will soon make themselves acquainted in Brisbane.

Mr. and Mrs. Al Foster visited in Oakland, Saturday of last week. Had quite a scare when Dickie, their little son, wandered off and was lost for a while. He was unharmed and found only six blocks from where he started.

Mr. and Mrs. Joe Hall suffered an accident last week when their car was smashed into by a drunken driver at Dick's Tower. These careless drivers are increasing in Brisbane. One resident was forced into a ditch and had to be towed out. Children are unsafe on the streets and even adults can scarcely hop out of the way. We need traffic laws here and need them badly.

We see our little friend, Miss Elaine Fredrick, on crutches. Miss Fredrick lives at 261 Klamouth street and is one of a pair of charming twins. We hope she will soon throw the crutches away.

Mrs. Walter Gull has been feeling under the weather lately. Her eyes are quite irritated. Everyone wishes her a speedy recovery.

Mr. and Mrs. Finney of Mendocino street have returned from Colorado, where they were visiting friends.

Mr. and Mrs. Clyde Croft will entertain the Rev. and Mrs. M. Donaldson, Sunday of this week, for dinner.

Butch Madersbach had a wreck last week on Third street. A truck hit him as he was returning from market. We are glad you were unharmed, Butch, even if the eggs did get scrambled.

Miss Georgette Baker is improving.

Mr. and Mrs. William Jonas are back on the job. Both look fine and are glad to be home again.

Mrs. Dewey Hausley has returned from Denver.

Don't forget the first-aid class at the Fire Hall.

Community Sunday School, Sunday, at the Fire Hall, 10 a. m.

It looks like a rain, so I will go now and hope to chat with you again next week. Bye, bye.

POE'S FIRST BOOK

The printing of Edgar Allan Poe's first book, "Tamerlane and Other Poems," was financed by the author. Copies are now worth between \$15,000 and \$20,000 in the book market.

SUPERVISORS IN EFFORT TO MAKE CONSOLIDATION

(Continued from Page 1)

proposed amendment to the county commercial dog kennel ordinance when he pointed out that the regulations proposed by the planning commission would almost bar kennels from the county.

The latest amendment, he said, would restrict kennels not only to industrial areas, but from any area within 500 feet of any residence even though the residence be located in an industrial section. The board referred the matter back to the district attorney's office. It will be changed to read that no kennel may be located within 500 feet of the boundary line of a residential area.

San Francisco bakers, irked by stringent regulations imposed by the San Mateo County Health Department, sent representatives to the meeting of the board of supervisors. J. W. Henderson, attorney for the California Bakers' Association, appeared before the board and stated that the regulations drawn up by Dr. Charles C. Gans, county health director, are "unreasonable, unfair, and impossible." He threatened to take the ordinance to court if the health department insisted in enforcing its regulations.

Assistant District Attorney Daniel Sullivan, who Tuesday night told the board that it may be advisable to change the regulations, explained that he referred specifically to the once a month medical examination of all employees. He defended the ordinance in regard to its general regulations.

County Health Director Charles C. Gans, has announced he is going to insist on enforcement of the law and regulations in every detail.

JAYSEE COEDS ANNUAL DANCE

This evening the San Mateo Jaysee coeds will hold their annual fall semi-formal dance in the college gymnasium with Hal Griffin's Golden Bear orchestra providing the music.

Jaysee students are electing their student body officers this week to serve during the coming spring term. Two votes are being taken to provide majority decisions.

Vance Adler, center, and Dan Bates, end, were named to the all-Conference football eleven by vote of all the coaches. The two players have been stars at San Mateo Jaysee for two years.

Fall basketball practice got underway this week with Coach Murius McFadden calling together his men in preparation for the conference season.

HIGH SCHOOL GIRL SCOUTS

The members of the Jefferson Union High School Girl Scouts, besides being an active group, are busy making gifts for Christmas.

These girls spend each Monday evening making head bands, lanyards and straps for camera cases out of leather along with potholders and many similar articles.

They have also made plans for many activities in the near future. These consist of a horseback ride, a roller skating party, ice skating and a bicycle ride.

The group meets every Monday from 7:15 to 8:30 p. m. at the home of the Scout leader, Miss Young. Visitors are always welcome at these meetings and those interested in this type of gathering are urged to attend, so that they may get a better idea of the work carried on by these scouts.

Brisbane P. T. A. Plans Meeting For December 16

Barbara Darling Publicity Chairman
223 Monterey, Brisbane

"Peace on Earth, Good Will Toward Men," with Margaret Davis Weller as speaker, will be the topic when the Brisbane P. T. A. meets, December 16, at 8 o'clock, in the school auditorium. A special program in the holiday spirit has been arranged, including a Christmas play by the children. The evening promises to be especially enjoyable and all members are urged to come and bring their friends.

The executive board of the Brisbane unit met, Thursday of last week and completed plans for the children's Christmas party, December 21. It was agreed that Santa Claus be invited as guest of honor for the occasion. Arrangements were made to purchase and make a curtain for the stage in the auditorium. Mr. Van Kirk is helping the committee make stage scenery. This scenery can be used for plays throughout the year by the school children.

Tuesday of this week, another successful whist was held at the school, by the Brisbane P. T. A. Paul Coffin received first prize; Mrs. Canter, second; E. Morley, third; A. Lathrop, fourth, and Stella Arthurs, consolation. Let's see you next Tuesday at 8 p. m. It's a date.

Jefferson Union High P. T. A. To Hold Meet

The next regular meeting of the Jefferson Union High School Parent Teachers Association will be held in the Little Theater in the school, on Wednesday afternoon of next week at 2 o'clock.

An excellent address and program have been planned. Refreshments will be served.

Copper is used in paints for ship bottoms to prevent marine growths from developing.

Jeff High School Basketball Games

With a score of 40-10 against the varsity and 27-12 against the 30's, the Balboas defeated Jefferson's basketball teams on their pavilion, Friday of last week.

Although the score was against the local boys throughout the entire game, the spirit was not lessened. Those who attended the game can well say that the Jeffersonians put up a good fight against the overpowering Buccaneers.

This was the first game of the season for Jefferson and, although we lost it, Coach Biggs believes that with a little more practice and experience, our boys will win several of the remaining games.

Points were made by the players as follows:

30's—E. Doyle 4, Barghini 4, Millet 1, Kennedy 2, Christian 1; total 12.

Varsity—C. Murray 5, Kanter 2, H. Smith 1, Compagno 1, Olson 1; total 10.

The following is a schedule of the P. A. L. basketball games to be played during the coming season:

January 21, Jefferson at Sequoia; January 28, Jefferson at Palo Alto; February 4, San Jose at Jefferson; February 11, Jefferson at San Mateo; February 18, Burlingame at Jefferson; February 25, Jefferson at South City; March 4, South City at Jefferson.

Will Start Work On Brisbane Church

At a meeting of the Board of Advisors, consisting of the following: J. A. Richards, chairman; Louise K. Lueke, financial secretary; H. C. Croft, treasurer; Hume B. Fox, clerk; George Fogarty and A. R. Foster, committeemen, it was decided to start preparation for a Sunday School room unit to be built as soon as possible. The ground will be broken in the next few days. All who will lend a hand with this work will please call or drop a card to Mrs. Lueke, 163 Monterey street, near San Bruno, or 300 Klamouth street.

The ladies are starting Monday to make a religious survey of Brisbane. Please co-operate with them. Had a good attendance at Sunday

certified according to state law.

3. No dairy shall be given a license after July 1, 1938, if the herd is not certified to be free of contagious abortion infection.

4. Skimmed milk used in combination with fruit and other flavorings shall comply with Grade "A" requirements for bacteria count.

5. All employees handling market milk must undergo a medical examination at least once each year.

On recommendation of Executive E. A. Rolison, the board informed the state that it will repay its 1933 relief loan from gas tax income in two equal instalments.

The board instructed County Clerk Augustus to prepare a letter of condolence to the family of the late Edward J. Farrell, former justice of the peace in the first township, who died Sunday night from injuries sustained in an automobile accident.

Visitacion City Water Company presented a claim for \$568.95 for damage to its pipes when WPA workers graded Brisbane streets under a county work-relief program.

TOO MUCH HEAVY FOOD

Lew Wenger, a resident of Sabatha, Kansas, has concluded that too much roughage might have killed his cow, which died this week.

A post mortem disclosed that the cow had eaten a pint of cinders, a two-inch nail, an assortment of smaller nails, staples, tacks, wire and slate.

School last Sunday, but hope to do better this Sunday. Ladies meet every Friday at 7 p. m., 163 Monterey street.

Rev. Donaldson speaks from 10:45 to 11:15.

Sunday School 10 to 10:45 at Brisbane Fire Hall.
